Contact Phone: [REDACTED]

Nature of Complaint:

Docket No. W 03443A-08-0313  
W 03443A-08-0177

The increase of 100% in water charges is more than the estimated cost of any improvements required for the treatment of arsenic or any other problems with this well and would pose an economic hardship for the people who depend on this well for their current water supply. The vendor is looking to have a major development approved on additional property that he owns and is looking for the existing water customers to provide the funds for increases in the cost of installing further required facilities for those improvements required for this new development. This vendor consistently uses bullying tactics to achieve his goals.
